

# Dynamic Strategic Mining Class

An active approach to mining alpha

Dynamic Strategic Mining Class invests in global equity securities of companies engaged in the exploration, development and production of metals and minerals, including, but not limited to, precious metals, industrial metals and critical minerals.

## Key benefits

### The role of metals and minerals in economic growth

- Metals and minerals have always been an integral input for continued economic growth. However, supply shortfalls are expected in the coming years and decades after a prolonged period of underinvestment in exploration and development.

### Diversification and active management

- Invest in a diversified and actively managed portfolio of mining companies across various stages of the mining lifecycle.

### Depth of experience where it matters

- Leverage the combined investment and technical knowledge of Dynamic's Metals and Mining team, which includes over 45 years of combined industry experience and covers the three main facets of mining: geology, mining process engineering and metallurgy.

## Metals & Mining Team

**Robert Cohen**, BASc., MBA, CFA  
Vice President &  
Senior Portfolio Manager  
Industry experience: 35+ years

**Emily Griffiths**, P.Geo, CFA  
Portfolio Manager  
Industry experience: 10+ years

### Active Matters. Experience Matters.

Mining has always been an important industry for Canada, known globally as a resource-rich nation. It's also an industry in which Dynamic has deep roots, stemming back to our origins as a wealth management company where mining was our core competency. One of the keys to our success was the entrepreneurial spirit and in-depth knowledge and technical experience of our investment team – a culture that is still very much alive today with Dynamic's Metals & Mining Team.
