1st Place Winner of the Canadian Hedge Fund Award for
Best 3 & 5 year Average Annual Compound Return

Canadian Hedge Fund Awards for 2020 (Disclaimer)

The annual Canadian Hedge Fund Awards help investors identify the best performing hedge funds by recognizing winners in 5 performance measures across 5 categories as well as the Overall Best Canadian Hedge Fund. The awards are based solely on quantitative performance data to June 30th, with Fundata Canada collecting and tabulating the data to determine the winners.

The Canadian Hedge Fund Awards are entirely quantitative, based solely on performance data, as tabulated by FundData. The Eligibility requirements for hedge funds to be considered for a Canadian Hedge Fund Award are: must be domiciled in Canada, must have a track record of at least 1 year to June 30th, must have a minimum \$10 million in AUM and Must be in CAD.

Canadian Hedge Funds are categorized for the purpose of the CHFAs by fund strategy as Equity Focused, the Funds that employ primarily equity investment strategies including Long/Short Equity, Event Driven, Convertible Arbitrage, Relative Value, Statistical Arbitrage and REITs. Fixed income investments are usually less than 30% of the Fund's portfolio. Funds with the majority of securities not marked-to-market are excluded (ie Private Equity funds are not eligible). Market Neutral, the Funds that seek to generate absolute positive returns entirely from security selection, not market exposure. The Fund seeks to remain "Market Neutral" by investing in long and short positions with low correlation to other asset classes. Shorts are used primarily for hedging rather than alpha generation.

Based on performance to June 30th, the Canadian Hedge Fund Awards measurements for each category are: Best 1 year return, New: Best 3 year average annual compound return, New: Best 3 year Sharpe Ratio, Best 5-year average annual compound return and Best 5-year Sharpe Ratio. The Best Overall Canadian Hedge Fund Award, combining best 10-year average annual compound return AND Best 10-year Sharpe Ratio, this award recognizes longevity as well as performance. Less than 50 Canadian hedge funds currently have this tenure. In the Focused Equity category, 71 funds were eligible for the 3 year average annual compound return award and 63 funds were eligible for the 5 year average annual compound return award.

The Dynamic Global Growth Opportunities Fund won first place awards for Best 3 year average annual compound return, and Best 5 year average annual compound return for the Equity Focused Category. Series A units are available for purchase to all accredited investors, while Series F units are only available to eligible investors who participate in eligible fee-based or wrap programs with their registered dealers. Differences in performance between these series are primarily due to differences in management fees and fixed administration fees. Performance results for Series F units may also appear higher than for Series A units as the management fee does not include the trailing commission. Commissions, trailing commissions, management fees and expenses may be associated with mutual fund investments. Please read the prospectus before investing. The indicated rates of return are the historical annual compounded total returns including changes in units value and reinvestment of all distributions and do not take into account sales, redemption, distribution or optional charges or income taxes payable by any securityholder that would have reduced returns. Mutual funds are not guaranteed, their values change frequently and past performance may not be repeated.
