

## **Dynamic Payout Portfolio™ launched for investors looking for steady income**

**TORONTO, January 13, 2026** – Dynamic today announced the launch of Dynamic Payout Portfolio™, an innovative income-focused solution built on Dynamic's "spend income, not capital" Paycheque Portfolio™ approach. The portfolio is designed to deliver stable monthly cash flow and long-term growth potential for retirees, pre-retirees, and income-seeking investors.

"Record numbers of Canadians are entering retirement and are faced with extended life expectancy, and therefore longevity risk. Generating sufficient income to fund those retirement years is essential and a cause of concern for many," said Mark Brisley, Head of Dynamic. "By combining complementary strategies into one solution, Dynamic Payout Portfolio aims to deliver a reliable and sustainable income stream for clients, which can be used before retirement and throughout their golden years, while minimizing erosion of their nest egg."

Dynamic Payout Portfolio is designed to generate stable monthly income from diverse sources while aiming to deliver modest growth over the long term. Its diversified construction includes credit exposure, options-based strategies, liquid alternatives, and private assets, enhancing income stability and reducing reliance on traditional bonds and equities. The fund is managed collaboratively by Vice Presidents & Senior Portfolio Managers Craig Maddock, Marc-André Gaudreau, and Damian Hoang, who together bring more than 80 years of combined

industry experience and specialize in multi-asset, specialized credit and quantitative strategies.
