

## **Dynamic launches diversified private assets solution**

**TORONTO, March 11, 2026** – Dynamic today announced the launch of Dynamic Diversified Private Assets Fund (the “Fund”), an evergreen multi-asset, multi-manager solution designed to provide accredited Canadian investors with convenient access to a diversified portfolio of private equity, private credit and private real assets.

The Fund is designed to help accredited investors enhance portfolio outcomes by expanding beyond traditional stocks and bonds into opportunities not widely available in the market, with the goal of enhancing diversification, aiming to reduce volatility and improve long-term, risk-adjusted returns.

“Private markets are playing an increasingly important role in modern portfolio construction,” said Mark Brisley, Head of Dynamic. “Dynamic Diversified Private Assets Fund provides a single-ticket solution that brings together leading global private asset managers and Dynamic’s multi-asset experience to deliver a thoughtfully diversified offering for eligible investors and is a natural evolution of our broader alternatives lineup.”

Dynamic Diversified Private Assets Fund is managed by Dynamic’s Multi-Asset Management Team, and draws on its private markets experience, rigorous institutional-grade due diligence process and access to global private asset strategies. The team leverages a range of leading affiliate investment managers, with deep, global experience and understanding of the private markets in which they specialize.

The Fund provides access to investors seeking exposure to a portfolio of quality in-the-ground private assets with a relatively low investment minimum. Structured as an open-ended trust, the Fund offers quarterly subscriptions, variable distributions and limited redemptions, reflecting the long-term nature and liquidity characteristics of private markets.
